Hi Eric,

Thanks for the voice mail. I was looking for the individual surface water contaminant concentration data along with data as to date, temperature, etc. Jennifer gave me access to the portal but I can tell which file name(s) contain these data. Eventually I'd like to match the portal files to whatever data Windward used to evaluate the food web model but that can come later. If you could just point me toward the right file names, that would be great. Thanks.

Bruce
